

## The JA Advantage

Toronto Construction Association is proud to support Junior Achievement this year on **Wednesday April 14<sup>th</sup>, 2010** and we are looking for **volunteers to enter local classrooms to deliver a powerful one-day program**. Junior Achievement programs help students recognize the advantages of being financially responsible and how to plan for their life and career goals. The lessons learned in one day can last a lifetime!

### How it Works

Delivering a Junior Achievement program is a fun and engaging way to inspire the next generation! Junior Achievement provides all of the training and materials necessary to make your day in the classroom a great success. Here's how it works:

- You attend a 2 hour training session before you enter the classroom - **training scheduled at TCA on March 30<sup>th</sup>**
- You and a teaching partner enter a local classroom as presenters to share your experiences and deliver the JA program together; the teacher remains in the classroom to manage the class dynamics
- Your JA liaison at TCA is Erin Cimino [ecimino@tcaconnect.com](mailto:ecimino@tcaconnect.com) 416-499-4000 x149

### Program Choice for TCA Members *Economics for Success (grade 8 students)*

This program introduces key concepts to help students develop a positive attitude towards education while recognizing the personal and economic costs of living on their own. This program encourages students to consider the advantages of staying in school or training so they may acquire the knowledge, skills, and motivation to pursue a successful career.
